

**TECHNICAL CORRIGENDUM – 1**  
**INVITATION FOR EXPRESSION OF INTEREST (EOI) FOR**  
**Empanelment of Partner for Boom Barrier (FASTag Programmable) Service Provider for Government Business Functions**  
**EOI NO.: EOT/COM/22-23/00052 DATED 27-09-2022**

SI NO	RFP Document Reference		Content of the RFP requiring clarification	Response from WBEIDC / To be read as
	Section No.	Page No.		
1.	3.1 (Scope of Work)	4	Installation of Boom Barrier with Programmable interface and FASTag- scanning in different international check posts.	Installation of Boom Barrier with Programmable interface and FASTag- scanning through API level integration with FASTTag Server via one of the approver banks and fetching the relevant data against each vehicle and pushing the same data to Suvidha Portal for necessary processing. This will be implemented in all the Boom Barriers deployed in different international check posts.
2.	3.2(Scope of Work)	4	Boom Barrier with Programmable interface and FASTag-scanning must be capable of handshaking with any Government Software' s through proper API	There should be API level integration between Boom Barrier and the Government Portal such as Suvidha.
3.	3.4 (Scope of Work)	4	Warranty of Boom Barrier with Programmable interface and FASTag-scanning should be 01 year.	Boom Barrier and associate hardware should contain 1 year warranty.

**TECHNICAL CORRIGENDUM – 1**  
**INVITATION FOR EXPRESSION OF INTEREST (EOI) FOR**  
**Empanelment of Partner for Boom Barrier (FASTag Programmable) Service Provider for Government Business Functions**

4.	3.5 (Scope of Work)	4	Indicative Specification for Boom Barrier and Anti Fall Radar	Indicative Specification for Boom Barrier and Anti Fall Radar- to be deleted.  And the Hardware specification would be freezed at the time of order processing and not at the EOI level, it would be finalized based on the solution document received from all the empanelled bidders.
5.	Scope of Work	4	Additional Point	Boom Barrier should come along with Programmable controller and FASTTag reader.
6.	Scope of Work	4	Additional Point	Necessary liasoning with the approver banks and to satisfy their revenue models.
7.	Scope of Work	4	Additional Point	All civil and masonry works under the guidance and approval of the LPAI, BSF and the WB Govt Staff should be taken up in a professional and urgent manner. As because all the installation sites are differently located across the land border areas of West Bengal, they should be charged at a lump sum average rate per Boom Barrier. Please note

				that since all the gates are operational, the civil work must be done without affecting the movement of the vehicles, as much as possible
8.	Scope of Work	4	Additional Point	The internet connectivity and the power will be provided at the point of installations by the Authority. Necessary specification requirement in this matter should be provided by the bidder.
9.	Scope of Work	4	Additional Point	Usually there will be one Boom Barrier per location but depending on the width of the road there may be additional barriers (1+1) at the same location.
10.	Scope of Work	4	Additional Point	Connectivity with the Boom Barrier and the Barrier-rest, which will run across the metal road, should be through an underground GI pipe. There will be another connectivity from the Boom Barrier setup and the nearest point where internet and power will be provided
11.	Scope of Work	4	Additional Point	Boom Barrier will receive instruction from the Suvidha Portal regarding opening of the Barrier and the Controller will then open the gate. However, a manual switch should also be provided.
