SECTION-A: INTRODUCTION & OBJECTIVE OF THE PROJECT

1. Introduction

The West Bengal Electronics Industry Development Corporation Limited (WBEIDC), incorporated in 1974, is the nodal agency of the Government of West Bengal (GoWB) for overall development of Information Technology (IT), Electronics and Information Technology enabled Services (ITeS) industries in the State of West Bengal. It is under the administrative control of Department of Information Technology and Electronics (DITE), Government of West Bengal. WBEIDC has been spearheading all the digital progression in the State.

The present project is about estimation of annual generation of e-waste in the State of West Bengal. E-waste is any electrical / electronic equipment / appliance / device etc. that is discarded by users after end of life / usages. Countrywide there is a challenge on how to dispose e-waste in environment friendly manner. Most of the electronic / electrical items have toxic substances. As per directive of Central Pollution Control Board (CPCB) and Hon'ble National Green Tribunal (NGT), an estimation is required to be done for annual e-waste generation in the state. CPCB has provided guidelines to do such estimation.

WBEIDC Limited on behalf of West Bengal Pollution Control Board (WBPCB) seeks proposal from eligible Consultancy Firms for the above work.

The successful Bidder will have to conduct study and make the estimate for the above.

2. Objective of the Project

The objective of this project is to plan, collect data, conduct survey, analyse data and make an estimate for annual e-waste generation in the state of West Bengal and submit final report.

Data needs to be collected from GST Council, Directorate of Commercial Taxes, Govt of WB sources for past 10 years for various categorized electrical and electronic equipment (EEE).

E-waste generation will be calculated based on past years' sales / purchase / acquisition data and applying average life-span method against defined categories of EEE as per CPCB guidelines.

The study shall also cover field survey at the present informal sector dismantling / refurbishing locations to avail ground data to estimate annual generation of e-waste.

The final report for Inventorisation of e-waste generation in the state shall contain current year's estimated tonnage and quantities of e-waste as per different categories as well as estimation of future generation.

SECTION - B: INSTRUCTION TO BIDDER

Total		100

2. Selection Methodology

The evaluation committee will evaluate each of the bids on the basis of Technical Evaluation Criteria. At the stage of technical evaluation, WBEIDC LTD. will assign points (quality of services score) to the pre-qualified bidders based on the technical evaluation criterion mentioned in this RFP.

To qualify the technical evaluation stage, the bidder must score a minimum of 70 marks.

The commercial bid of the technically qualified bidders will then be opened and reviewed to determine whether the commercial bids are substantially responsive in respect of commercial considerations.

The evaluation will be made on the basis of QCBS with 80:20 ratio, where the weightage on the Technical part will be 80 percent and the 20 percent weightage to be given in commercial.

The bidder with the highest total score would be declared successful.

The cost indicated in the Commercial Proposal shall be deemed as final and reflecting the total cost of services and should be stated in INR only.

The lowest Commercial Proposal (Fm) will be given a score (Sf) of 100 points.

The Financial scores (Sf) of the other Commercial Proposals will be determined using the following formula:

$$Sf = 100 \times Fm/F;$$

In which Sf is the Commercial score, Fm is the lowest Commercial Proposal, and F is the Commercial Proposal (in INR) under consideration.

Proposals will be finally be ranked in accordance with their combined technical (St) and financial (Sf) scores:

$$S = St \times Tw + Sf \times Fw;$$

Where S is the combined score, and Tw and Fw are weights assigned to Technical Proposal and Commercial Proposal that will be in the ratio of 80:20.

For Additional information/clarification (if reqd.), WBEIDC LTD. reserves the right to ask for any additional information. Bidders that fail to submit additional information or clarification as sought by evaluation committee within 10 days of the receipt of letter requesting for such additional information and/or clarification from WBEIDC LTD., their bids will be evaluated based on the information furnished along with the bid proposal.

SECTION-E: SCOPE OF WORK

Collection and analysis of data of sales / purchase / acquisition of Electrical and Electronic Equipment during previous years by using different set of formulae will provide an estimate of current e-waste. From sales data to be obtained from GST Council, Directorate of Commercial Taxes, GoWB, State Govt authorities etc., it is possible to assess current year e-waste quantity as per methods provided by CPCB.

Govt. of India has mentioned under E-waste handling rules 2016 that there are 21 (16+5) items which need to be considered for generation of e waste (corresponding item codes have also been assigned) and the same is also mentioned in CPCB and NGT order. We understand the list is being expanded further.

NGT Order and CPCB guidelines specify methods for estimation of e waste generation based on the sale of EEE in state and their life span. An agency will be engaged to acquire the data regarding sale of selected EEE in the state to calculate the quantity of e waste generation per year.

Method for Estimation of e-waste Generation prescribed in NGT order and CPCB Guideline.

E waste generation for a specific electrical Electronic equipment (EEE) category code is to be established on the basis of the quantity (number and weight) of EEE placed in the market in the previous years and taking into consideration the average life of the equipment.

Inventory of e waste generation will be carried out using the methods as given below:
The generation of e-waste from end of life products:

E waste generation (weight or number) in the financial year 'x-y' = sales in the financial year '(x-y)- (y-z)'
Where 'x -y' = financial year in which generation is estimated and Z= average life span of EEE.

Based on the collected data, present e-waste generation will be assessed for the studied category of products.

Different locations in Kolkata & Howrah are identified, where dismantling work takes place informally. Surveys are to be conducted at those places as part of the exercise : Chandni Market, Princep Street, Hazra Road, Bondel Gate, Khidirpur - Metiabruz, Rifle Range Road, Keshab Sen Street, Tarak PramanikRoad, Girish Park, Rajabazar, Topsia - Tiljala, Kankurgachi - Kadapara, Howrah - Ghusuri, Howrah – Bajrangboli, etc.

Some interactions with the experts group of WBPCB, Environmental researchers / forums, people in the dismantling / refurbishing / recycling business will lead to meaningful results in this study.

Study will focus on the Inventorization (in tonnage and quantities) of e-waste for all categories of products mentioned as per EEE Codes in e-waste Rules, 2011.

Study will envisage the current status of annual e-waste generation and Management in the state, which can be used as a baseline for future action plans. Estimation of future generation (projection) of e-waste in the state is to be ascertained in the study.

Deliverables and Schedule

The entire assignment is expected to follow all guidelines of the Honorable NGT and necessary approvals may be taken from WBPCB whenever required. The assignment shall be for a period of 4 months and the delivery schedule shall be as follows:

1. Inception report within three (3) weeks from the date of work order.
2. Preparation of formats and finalization of methodologies in consultation with WBPCB.
3. Preliminary study report - within ten (10) weeks from the date of commencement
4. Draft final report - within fourteen (14) weeks from the date of work order
5. Final report after incorporating changes suggested by the Board within sixteen (16) weeks from the date of commencement.
6. All deliverables shall be in three (3) signed and sealed hardcopies as well as softcopy pdf / doc/ xls files in DVD / pen drive.
